

New Hoist Machine Operator Class C license Cards

The Department is now issuing a new license card for all new and renewed Class C Hoist Machine Operators licenses. Department inspectors and staff will continue to accept existing Class C licenses until their expiration date.

The new card will display "Hoist Machine Operator" as the license type in the top right corner of the front of the badge instead of "Cherry Picker."

The back of the license card now displays the National Commission for the Certification of Crane Operators (NCCCO) designation.

If you'd like to have your license card reissued, complete the LIC2 application for a reissue and submit it to the Licensing unit with a \$50 check or money order.
