

# Crane Report

## PRACTICAL EXAMINATION—ARTICULATING BOOM LOADER

NCCCO has established specific safety conditions and guidelines that each practical exam must follow. This Crane Report is a verification tool used to ensure that all testing parameters are within strict, safe working conditions. Before testing is conducted, the crane being used for testing must have its own unique report filled out. This report should be completed in ink, signed by the Examiner, and sent with the Site Report to: NCCCO—Testing Services Department, 34125 U.S. Highway 19 North, Suite 150, Palm Harbor, FL 34684.

Reminder: *Each crane used must have a separate report filled out.*
