NATIONAL COMMISSION FOR THE CERTIFICATION OF CRANE OPERATORS (NCCCO)

PRACTICAL EXAMINATION
TEST SITE COORDINATOR HANDBOOK
• DEDICATED PILE DRIVER OPERATOR
This handbook reflects NCCCO’s current policies at the time of publication. To be sure that you have the latest version of this book, see the Handbooks and Forms page on the NCCCO website.

NCCCO does not discriminate against any individual because of race, gender, age, creed, disability, or national origin.
Dear Practical Test Site Coordinator:

Welcome to the Practical Examination segment of the National Commission for the Certification of Crane Operators (NCCCO) dedicated pile driver operator certification program.

The CCO Dedicated Pile Driver Operator Practical Examination was created as a fair, valid, and reliable assessment of the essential skills that dedicated pile driver operators need to demonstrate to be certified by NCCCO to operate cranes. This program was developed by an NCCCO task force made up of industry experts—including operators, training directors, managers, supervisors, manufacturers—who together represent many thousands of hours of dedicated pile driver experience. These volunteers gave freely of their time and expertise with the goal of improving the safety of all whose work brings them into contact with this equipment. NCCCO used its exam development expertise to guide the task force in establishing key elements of the program, including identifying essential skills, selecting tasks, standardizing test conditions, developing the scoring process, establishing reliability among tests, and creating flexible application and scheduling procedures. In concert with the task force, NCCCO also designed the Dedicated Pile Driver Practical Examiner Accreditation Program whereby NCCCO trains and accredits CCO–certified operators to administer CCO Practical Examinations.

In August 2010, the federal Occupational Safety and Health Administration (OSHA) enacted new national standards for cranes and derricks used in construction under 29 CFR 1926 Subpart CC. These new rules require that operators of most hoisting equipment above 2,000 lb. capacity when used in construction need to be either certified by an accredited operator testing organization such as NCCCO or qualified through an audited employer program. Section 1926.1427 of the new rule describes crane operator certification/qualification requirements. Option 1, which is anticipated to be the most commonly used, requires operators to be certified by a nationally accredited testing organization that tests operators through written and practical testing. Obtaining CCO certification from NCCCO meets all the requirements set forth by the new OSHA rule.

This handbook has been developed to provide you, the Practical Test Site Coordinator, with all the information you need to prepare for successful CCO practical examinations. As the Practical Test Site Coordinator, you play a critical role in the smooth administration of CCO exams on test day. **It is vitally important that you study this entire handbook carefully before making any preparations for a practical test administration.** The overview of the Practical Examination Process on page 1 and the summary of your responsibilities in the subsequent chapter are particularly important to understand the requirements for hosting and administering practical examinations. As you read through this handbook, you will find that it provides a large amount of detail on such aspects as dedicated pile driver selection and configuration layout of the test site and construction of the Test Pile and other test site equipment. The validity and reliability of the test you are planning to administer depends on your following of these each requirements precisely. Failure to do so could result in your practical test being declared invalid and the need to start over.

NCCCO recognizes the commitment you have made and the resources you will allocate to hosting CCO practical examinations. We want your experience to be a positive and successful one, and we stand ready to assist you in reaching that goal. If, after reading this handbook, there is anything you do not fully understand or need clarifying, please call NCCCO at 703-560-2391 or email info@nccco.org. NCCCO staff will guide you through any aspects of the practical examination administration process that you would like explained in detail.

## Summary of Changes

Summary of Changes ............................................................................................................ 42
# Practical Examination Process

**FOUR OR MORE WEEKS BEFORE THE PRACTICAL EXAM…**

**STEP 1**
The Test Site Coordinator identifies:
- The Practical Examiner who will conduct the test
- The approximate date of test
- Number of candidates to be tested

**STEP 2**
The Test Site Coordinator completes the Practical Examination Test Site Application and sends it to NCCCO’s Western Regional office.

**TWO OR MORE WEEKS BEFORE THE PRACTICAL EXAM…**

**STEP 3**
The Test Site Coordinator sets scheduling of the test with the Practical Examiner.

**ONE OR MORE DAYS BEFORE THE PRACTICAL EXAM…**

**STEP 4**
The Test Site Coordinator:
- Prepares the Test Site in accordance with NCCCO requirements
- Notifies NCCCO’s Western Regional Office of the intent to test via the NCCCO website no less than two business days prior to testing (new Test Sites only)
- Reviews the Practical Exam Candidate Application for each candidate

**ON THE DAY OF THE PRACTICAL EXAM…**

**STEP 5**
The Practical Examiner:
- Completes a Site Report for each Practical Exam course, prior to testing
- Fills out a Dedicated Pile Driver Equipment Readiness Report for each dedicated pile driver prior to it being used for testing
- Administers the Practical Examination(s)

**AFTER THE PRACTICAL EXAM…**

**STEP 6**
The Test Site Coordinator sends the following documents to NCCCO:
- Candidate Applications with passport photos
- Candidate Written Exam verification (if applicable)
- Candidate fees

The Practical Examiner sends the following documents to NCCCO:
- Candidate Score Sheet(s)
- Site Report(s)
- Dedicated Pile Driver Equipment Readiness Report(s)

**WITHIN 12 BUSINESS DAYS AFTER RECEIVING THE NECESSARY DOCUMENTS…**

**STEP 7**
NCCCO processes the Candidate Score Sheets and sends:
- Score reports to candidates and, if applicable, certification cards
- A Pass/Fail Score Report or Detailed Score Report to Test Site Coordinator (if requested)
Facilities seeking to serve as NCCCO Practical Exam Sites must meet all the following criteria for hosting a Practical Exam. If the facility meets the stated criteria, NCCCO will provide all the information necessary to schedule Practical Examinations. Test Sites and Practical Examiners are permitted charge additional fees beyond the NCCCO exam fees for the use of their facilities and/or services.

**CRITERIA FOR TEST SITES**

Each Practical Exam Test Site facility must arrange to have on site the following:

- A designated Test Site Coordinator
- An NCCCO Accredited Practical Examiner
- A designated Proctor(s) to assist the Practical Examiner during the test
- Dedicated pile driver(s) that meet NCCCO requirements for the Practical Exam(s) to be given (All equipment used for NCCCO testing shall comply with minimum OSHA requirements; where OSHA does not apply ASME B30 will be used.)
- An area suitable for testing on the dedicated pile driver(s) selected and ancillary equipment necessary for conducting the exam(s)
- An location suitable for the Pre-Test Briefing of exam candidates and a waiting area.

In addition, Practical Exam Test Sites must pay an annual $50 registration fee at the time of application and before the first practical test of each calendar year thereafter. If running a variety of CCO exams at that location, only one Test Site fee is charged on an annual basis. Employers or organizations with more than one Test Site must pay a fee for each site. Candidate Score Sheets from exams conducted at Practical Exam Test Sites that have not paid the $50 annual fee will not be processed.

Test Sites are registered to the physical address of where testing occurs. Multiple companies and/or sites are not permitted to be established under the same address, although additional equipment can be added by submitting the appropriate Test Site Application(s) to NCCCO’s Western Regional Office. Should a Test Site need to become inactive or remove equipment, it must provide the following information to NCCCO in writing:

- PE Site Number
- Company Representative
- Company
- Contact information (phone and email)
- Company Representative signature

No site will be discontinued without this documentation.

Any Practical Exam Test Sites that become inactive (i.e., do not pay their annual test site fee) will be placed in probationary status (see below) and must follow the requirements for new Test Sites should they want to become approved again in the future.

In the event a Test Site’s location changes, a new Test Site must be established by completing and submitting a new Test Site Application. A new site number will be assigned to the new location. Score sheets submitted for testing at unregistered Test Sites will not be processed.

**NEW AND PROBATIONARY TEST SITES**

For all new test sites and for 12 months after their first test administration, all new NCCCO Practical Exam Test Sites are conferred “probationary” status. The purpose of this probation is to monitor new test sites and ensure that they are following NCCCO’s policies and procedures. These procedures include proper notification of testing, proper cancellation, and cooperation in the audit process.

Probationary test sites are required to provide notification via the NCCCO website at http://nccco.org/login no less than two business days prior to any test administration. Changes or cancellations to testing plans are subject to the same notification requirement. Once a site has provided test notification to NCCCO, that will be considered intent to test on that day and the site may be audited even if no testing occurs.

After a 12-month time frame, a probationary test site’s history is reviewed to ensure that it has followed NCCCO’s policies and procedures, including notification procedures. If a test site has not been providing proper notification, the probationary period will be extended at six-month intervals until such time that the policies and procedures have been properly followed.

**TEST SITE COORDINATOR**

The person designated by the host company or organization to liaise with NCCCO on test administration matters is known as the Test Site Coordinator. The Test Site Coordinator is responsible for the following:

- Preparing a test area in accordance with the directions in the Test Site Setup, Test Site Layout Instructions, and Test Site Layout (CAD) provided by NCCCO for the dedicated pile driver type to be tested on
• Preparing test equipment in accordance with the directions provided under Dedicated Pile Driver Selection and Setup
• Scheduling candidates to take the Practical Exam, and informing them of their test date, location, and time
• Liaising with the Practical Examiner and NCCCO in all aspects of test preparation and administration
• Remaining at the Test Site throughout each test administration (or a designated representative)
• Have a direct email address to receive email notifications from NCCCO (this may not be a shared address)

Test Site Coordinators are also responsible for ensuring that all candidates and proctors meet NCCCO’s personal protective equipment (PPE) policies, which at a minimum meet OSHA requirements.

All Test Site Coordinators and their designated representative are required to submit a completed Test Site Coordinator Agreement form (page 11) to the NCCCO Western Regional Office.

NCCCO periodically emails Information Bulletins to all Test Site Coordinators containing clarifications and updated policies. To remain in good standing, Test Site Coordinators are required to abide by the information contained therein.

PRACTICAL EXAMINER

Practical Examinations are conducted by NCCCO-accredited Practical Examiners. NCCCO does not assign a Practical Examiner for your site; you can search a directory of accredited Practical Examiners available for hire on NCCCO’s website at www.nccco.org/pe-for-hire. Practical Examiners must have an email address as a condition of accreditation.

Examiners may test only one candidate on one dedicated pile driver at one time. Thus, testing a candidate (or several candidates, in turn) on one dedicated pile driver, requires only one Practical Examiner. Testing two candidates simultaneously on separate dedicated pile drivers would, however, require two Practical Examiners, and so on.

If you need assistance on selecting a Practical Examiner, contact NCCCO.

Only Practical Examiners are permitted to request official Candidate Score Sheets from NCCCO. These must be requested or ordered online at least two weeks prior to the intended test date.

PROCTORS

Proctors are volunteers who assist the Practical Examiner in administering exams. The Test Site Coordinator is responsible for assigning one Proctor per Practical Examiner to assist during the test. Proctors are under the direction of the Practical Examiner during the test administration. Candidates waiting to take the Practical Exam are permitted to serve as Proctors during Practical Exams.

APPLYING TO HOST A PRACTICAL EXAMINATION

When the Test Site Coordinator is ready to schedule a test, he/she must submit to NCCCO a completed Test Site Application.

NCCCO Practical Test Sites are registered by the host company for which the services are being provided, not the training company or the Practical Examiner.

The Test Site Application shall be filled out under the company’s information for which the services are being provided (not the training company). All contact information (including an email address for the company contact person) must be provided. The training representative is not an acceptable contact person.

As illustrated on page 1, Test Site Application(s) should be sent, along with all additional requested materials, to NCCCO no later than four weeks prior to the desired test date. Note that all the information requested must be included; incomplete applications cannot be processed.

Once the application has been approved, NCCCO will send the layout of the Test Site and dedicated pile driver setup, including a CAD Test Site Plan. NCCCO will email the CAD directly to the host company representative and the Test Site Coordinator.

SITE LAYOUT

Using the information NCCCO provides, including the Test Site Layout (CAD) and the instructions contained in this handbook, the Test Site Coordinator should prepare the dedicated pile driver and lay out the Test Site.

Before the Practical Examiner can begin testing, he/she will verify the test site has been laid out correctly. Copies of the Site Report and Dedicated Pile Driver Equipment Readiness Report are provided in this handbook. NCCCO encourages Test Site Coordinators to use these reports to check that all items are in order before the Examiner arrives. This will expedite the Examiner’s verification of the Test Site.

For permanent practical Test Sites, the requirement for a site inspection prior to each test may be waived. This
option is available only to Test Sites where there has been no change in test dedicated pile driver, test site/location, and Test Site Coordinator in the last six months. If it has been more than six months since the last full Site Report was submitted, another full Site Report must be submitted.

**PRACTICING THE TEST COURSE**

NCCCO discourages the use of authorized test courses for practice purposes. No CAD will be issued for a “practice” purpose only. Those wishing to establish a test course for practice purposes may use the Sample CAD provided in this handbook. Practicing the Practical Exam on or before the day of the test is permitted, however, with the approval of the site’s Test Site Coordinator.

**PERMANENT TEST SITES**

Practical Test Sites that test on a regular basis may become permanent Practical Test Sites. For such sites, the requirement for a site inspection prior to each test may be waived. This option is available only to test sites where there has been no change in test equipment, test site/location, and Test Site Coordinator in the last 12 months.

An annual full site report is required for permanent test sites. Permanent Test Sites that are open to qualified candidates may be listed on the NCCCO website using the Agreement for Listing as an Open Practical Exam Test Site form available on the Handbooks and Forms page.

Use the enclosed Permanent Test Site Application to apply for Permanent Test Site status. Probationary test sites may not apply.

**SECURE TEST SITES**

Test sites with limited access and/or enhanced security protocols that might interfere with the ability of testing personnel and/or NCCCO staff and Auditor to enter are required to indicate on their Test Site Applications that they are secure sites. They must also complete the enclosed Security Requirements Report and provide any associated documentation (such as the site’s formal security policy), all of which should be submitted along with the Test Site Application. All Secure Test Sites—including permanent Test Sites—must submit completed Security Requirement Reports annually.

**VERIFYING CANDIDATE ELIGIBILITY**

Candidates must pass both a written exam and a practical exam in the category(s) they wish to be certified in. Candidates have 12 months after they pass the first Exam (written or practical) in which to take and pass the corresponding written or practical exam in the same category. Candidates may take their written and practical Exams in either order. For example, a candidate passing the Dedicated Pile Driver Operator written exam would have 12 months to pass the Dedicated Pile Driver Operator practical exam.

**CANDIDATE PHOTOGRAPHS**

All candidate applications must be accompanied by a color, head-and-shoulders photograph of the candidate without hat or sunglasses. Test Sites equipped with digital photographic equipment are encouraged to submit candidate photographs to NCCCO in digital format via email or CD.

**PRACTICAL EXAMINATION FEES**

Examination fees for the practical examination are as follows:

- Dedicated Pile Driver Operator Practical Exam .... $100

The appropriate fees must be submitted with the practical exam application through the Test Site Coordinator. The same fees apply for retest exams.

**SUBMITTING APPLICATIONS**

Once testing is completed, the Test Site Coordinator must electronically submit (eSubmit) to NCCCO:

- Candidate applications with photos
- Candidate fees

For additional information regarding eSubmit, please contact Jennifer Warner at 727-449-8525, ext. 430 or by email at jwarner@nccco.org.

If unable to submit electronically, Test Site Coordinators may send to NCCCO via overnight or second-day courier.

**SCORE REPORTING**

All candidates are mailed a report of their performance from NCCCO approximately 12 business days after receipt of the Candidate Score Sheets from the Practical Examiner. Test Site Coordinators are automatically sent at no charge a Pass/Fail Score Report and Certification Number Report for all candidates testing at their sites. NCCCO encourages Test Site Coordinators to use the data in both reports (but not the report itself) to provide information to candidates or their employers so they may schedule retesting or verify certification through the Verify CCOnline (VCO) system.

Test Site Coordinators may also request a Detailed Score Report for all candidates by completing the appropriate form in this handbook and submitting it, along with a $50 processing fee, to NCCCO when returning test adminis-
tration materials for each administration. Note that all requests for Detailed Score Reports must include the release signature of each candidate.

AUDIT PROGRAM

NCCCO conducts audits of Test Sites and/or Practical Examiners in accordance with the accreditation requirements of the American National Standards Institute (ANSI).

Test Sites and/or Practical Examiners are selected for audits on the basis of a variety of criteria, including random selection, in response to issues reported by candidates, unusually high or low pass rates, new Test Sites, or probationary Examiners.

Once a site has been selected for an audit, the Test Site Coordinator or company representative from the site may be notified by letter from NCCCO prior to the scheduled test day. In addition, the auditor will contact the Test Site Coordinator or company representative to verify the testing date and the site address. Unannounced audits may also be conducted.

It is a condition of Practical Examiner accreditation and Test Site status that all Test Site personnel, including the Test Site Coordinator, Practical Examiner, and Proctor, cooperate fully with the NCCCO auditor during the audit process.

Practical Examiners who have been audited and have been notified that an additional audit is required, will be responsible for the expenses incurred by NCCCO for the additional audit. Any practical exams conducted by the Examiner will not be scored until NCCCO has been reimbursed for the incurred expenses.

Thank you for your application to be a Test Site Coordinator for CCO Practical Examinations. Test Site Coordinators play a critical role in the CCO examination process, from the initial site application, through the collection and submission of candidate applications to NCCCO, to serving as liaison with the Examiner on test day. To ensure a smooth administration of CCO certification exams, it is critical that Test Site Coordinators fulfill their duties in a competent and professional manner. Please review the following Agreement and sign below where indicated, acknowledging that you have read and understood this Agreement and that, should your application be successful, you agree to abide by all of its provisions. NOTE: If your employment or affiliation changes from the company/organization listed below, you must complete and execute this form anew.

As a Test Site Coordinator for CCO Practical Examinations, I certify and acknowledge that:

1. I will not disclose (nor cause to be disclosed) to anyone outside of NCCCO any confidential information I obtain as a result of my participation as a Test Site Coordinator in the CCO certification program, including, without limitation, the content of any examination.
2. I have read all applicable NCCCO policies and procedures, particularly those detailed in the Practical Examination Test Site Coordinator Handbook, and I agree to be bound by the same.
3. I have read NCCCO’s Criteria for Practical Test Sites and agree to prepare all Test Sites in accordance with the general directions set forth therein.
4. I agree to provide authorized personnel with access to the Test Site on test day and to remain (or arrange for my designated representative(s) to remain) at the Test Site throughout the test administration.
5. If I arrange for one or more representatives to remain at the Test Site, I agree to explain the responsibilities and obligations of a Test Site Coordinator to such persons and to ensure their compliance therewith.
6. I understand that the site for which I am a Test Site Coordinator may be audited by NCCCO and that I am required to cooperate fully with the NCCCO Auditor.
7. I agree to meet all applicable deadlines for submitting the Practical Test Site Application and Data Sheet with all necessary supporting dedicated pile driver documentation.
8. I agree to ensure that all Candidate Applications I submit are complete and in compliance with stated NCCCO policies and procedures, including any required payments.
9. I agree to pay any and all fees that are due in a timely fashion, including any additional fees I may incur by submitting incomplete or late applications.
10. I agree not to make, and not to knowingly allow any other person to make, any material misrepresentation or omission of fact in any document I submit to NCCCO.
11. I am acting on my own behalf and/or on behalf of the company or organization set forth below, and I am not acting to circumvent a prior NCCCO suspension or revocation.
12. I agree to conduct my affairs with NCCCO, any Examiner, clients, and candidates in a professional manner, according to accepted codes of business conduct.

I understand that non-compliance with any of these provisions may result in the revocation or suspension of my status as a Test Site Coordinator for CCO Practical Examinations. I agree that any questions or other matter arising under this agreement will be governed by and construed in accordance with the laws of the State of Virginia, without regard to choice of law rules. All actions and proceedings arising out of or relating directly or indirectly to this agreement will be filed and litigated exclusively in any state court or federal court located in the State of Virginia. I expressly consent to the jurisdiction of these courts.

If additional space is needed, please continue on the back side of this application.

The Test Site Coordinator or Company Representative assumes total responsibility for selecting equipment and verifying that at all times during the testing process the equipment is in compliance with federal and state OSHA requirements and current applicable industry standards.

By signing this application, I understand as Test Site Coordinator or Company Representative that this site is a permanent site in which the course, cranes/digger derricks/pile drivers/drill rigs, and Test Site Coordinator have not changed within the last 12 months. I also agree to abide by all NCCCO Practical Test Site policies and procedures. I understand that by signing this application, NCCCO will conduct an audit of the test site prior to the site being granted permanent status and that if at any time within 12 months the course, cranes/digger derricks/pile drivers/drill rigs, or Test Site Coordinator change, this site will no longer be considered permanent and a new application for permanent status will be required.

*I declare that the foregoing statements and those in any required accompanying documentation are true. I understand and agree that my failure to provide accurate and complete information or abide by NCCCO’s policies and procedures, including the Code of Ethics, shall constitute grounds for the rejection of my application, or denial or revocation of my certification. I understand that NCCCO reserves the right to verify any information in this application or in connection with my certification. I expressly consent to NCCCO’s release of any information consistent with NCCCO’s Information Release policy. I have read the NCCCO Candidate Handbook and agree to be bound by all NCCCO policies and procedures—including NCCCO’s substance abuse policy—as they may be amended from time to time, including without limitation those posted at nccco.org. I further attest that I am physically and mentally capable of safely operating equipment and/or performing the tasks described in the Candidate Handbook on the day of the Practical Exam. I understand and agree that any personal injury and/or property damage resulting from or caused in any way by my participation in the CCO Practical Exam is not and shall not be the responsibility of NCCCO. I understand that if at any point during my certification period I fail to meet any of the requirements outlined above, or if matters arise that can affect my capability to continue to fulfill certification requirements, I must report it to NCCCO immediately and agree to cooperate with any subsequent investigation regarding such matters.

CANDIDATE APPLICATION (CONT’D)
PRACTICAL EXAMINATION—DEDICATED PILE DRIVER OPERATOR

CCO CERTIFICATION CARD

Candidates who meet all the requirements for certification in any one designation are issued a certification card at no charge. As certificants add additional designations, updated cards are issued at no additional charge. Replacement cards are available for an additional fee; order online at nccco.org/newcard.

Please provide your Test Site Coordinator with a digital color photo (without hat or sunglasses) labeled with your full name and birth date.

Alternately, a 1¾” × 1¾” color passport photo may be substituted for a digital photo; if submitting a passport photo, please give it to your Test Site Coordinator, do not mail it directly to NCCCO.

PRACTICAL EXAMINATION FEES

Checks and money orders must be made payable to NCCCO. Credit cards (Visa, Master Card, or American Express) may be used by completing the credit card information below.

Check the box(es) next to the Practical Exam type(s) for which you are registering.

Practical Examination Fees:

- Dedicated Pile Driver Operator: $100
- Incomplete application fee (if applicable): $30

METHOD OF PAYMENT FOR CANDIDATE EXAMINATION FEES

If paying by credit card, complete the following information:

- VISA  
- MasterCard  
- American Express  
- Personal check enclosed  
- Employer check enclosed  
- Money Order enclosed

Do not send cash.

If using company credit card, provide company name: ____________________________

Email credit card receipt to: ________________________________

Checks and money orders should be payable to: NCCCO

Do not send this application to NCCCO. Give this application, along with payment and all necessary documentation, to your Test Site Coordinator on test day.
Detailed Score Report Request Form
FOR CCO PRACTICAL EXAMINATIONS

If you wish to receive a Detailed Score Report on candidates taking the CCO examination(s), please fill out this form and submit it, along with a $50 processing fee, to NCCCO when you return your test administration materials for each administration:

NCCCO—Practical Exam Processing
5250 S. Commerce Drive, Suite 100
Murray, UT 84107
Phone: 801-363-2693
Fax: 801-938-9540
Email: jwarner@nccco.org

You must submit this form for each test administration. Scores are the property of the candidate, and his/her consent must be obtained before NCCCO can release the scores to a third party. Please have the candidate sign under the release statement below.

Please type or print neatly.

Test Site Coordinator Instructions & Forms

DEDICATED PILE DRIVER OPERATOR

- Test Site Setup
- Pole Barrier Construction
- Sample Test Site Layout (CAD)
- Test Site Layout Instructions
- Dedicated Pile Driver Selection and Setup
- Photographs
- Ready Reference Checklist
- Site Report
- Dedicated Pile Driver Equipment Readiness Report
PRE-TEST CANDIDATE BRIEFING AREA
This area must be located so that waiting candidates are unable to observe testing procedures. It must be provided with:
• NCCCO candidate instruction materials, including a written description of the examination (Candidate Handbook) and copies of the Test Site Layout (CAD)
• Operator’s manuals and load charts for all dedicated pile drivers to be tested on
• A location suitable for the Pre-Test Briefing of exam candidates, to include:
  – Sufficient tables and chairs to seat candidates for the Pre-Test Briefing
  – Head table or podium at the front of the room
  – Registration table
  – Quiet, well-lit, surroundings with a comfortable temperature
  – Easy access to unlocked rest rooms stocked with sufficient supplies
  – Easy access to a water fountain
  – Large signs prominently posted to make candidates aware of the location of the test

CORRIDOR
The Corridor is composed of a PVC-pole barrier with one tennis ball placed on top of each pole.

POLES
Poles are made of 1½-inch, white PVC pipe (SCH 40), painted orange or red on top (see Pole Barrier Construction Diagrams, page 25). One inside splice per 3 ft. pole is permitted but outside splices of PVC pipes are NOT permitted.

The poles must be mounted to a pole base made of two layers of ¾-inch, CDX-grade (or better) plywood glued together, cut 12 in. (nominal) long with ends cut square.

As an alternative to plywood, 1 in. thick high density polyethylene (HDPE), may be used to construct the pole bases. If using HDPE, use 1 in. thick material or two layers of ½ in. material glued together.

The bases must meet all of the following requirements:
• Weight: 5 lb. (±10%)
• Nominal dimensions: 12 in. × 12 in.
• Thickness: plywood 1½ in. or HDPE 1 in.

The weight must be spread evenly across the base. Pole bases may be coated with a protective finish if desired, so long as they continue to meet the stated design and construction parameters.

Pole bases must be placed as indicated on the Test Site Layout (CAD). A taut, longitudinal string line must be placed on the ground under the centerline of each pole base. A cut concrete line may be used in lieu of a string line.

To assist the Examiner and Proctor in restoring the Corridor between tasks, the tennis balls may be attached to the pole by means of 12 in. long nylon string. The string must be attached between 2 in. and 8 in. from the top of the pole and to the tennis ball as illustrated on page 27.

During the test, the string loops must face towards the outside of the corridor to avoid the string being snagged on the Test Weight.

If the string does become snagged during a test, the Examiner must stop the test, restore the corridor to its original condition, and direct the candidate to restart the task.

DESIGNATED AREAS (BARRELS)
As shown on the diagram below, designated areas for barrels are required to have:
• A 3/4 in. plywood base
• Two circles centered on base:
  – One circle with outside diameter of 18 inches
  – One circle with an inside diameter equal to the diameter of the barrels used for testing
• Circle lines must be at least 2 in. wide
Each barrel should be placed within a 2 in. wide circle line (with a maximum width of 2¼ in.) painted around the outline of the barrel, on a 4 ft. × 4 ft. sheet of ¾-inch CDX (or better) plywood, secured or weighted as necessary to prevent movement. A spare barrel must be available in case of damage to any of the barrels during the test. An additional 18 in. outside diameter circle with a 2 in. wide line should be centered on the plywood.

**DESIGNATED AREA (PILE BOX)**

The designated area for the pile box must be:

- One 4 ft. × 4 ft. sheet of ¾-inch CDX (or better) plywood, secured or weighted as necessary to prevent movement, with an inside marking of at least 2 in.
- Secured to ground to prevent movement

**PILE PLATE**

The pile plate must be a 3 ft. × 3 ft. steel plate thick enough to prevent deformation when the test pile is driven at low power.

**LEVEL**

All parts of the Test Site must be level and free of debris, stored materials, surface irregularities, or hazards such as overhead power lines that could interfere with test maneuvers. No obstructions may be within 5 ft. of a practical test course in any direction.
Pole Barrier Construction
DEDICATED PILE DRIVER OPERATOR

Tennis Ball

12 in. painted or taped flourescent red or orange

12 in. nylon string

1½ in. PVC
sch 40 Pipe

36 in. pipe length

Pipe must be fully inserted into hole so that the distance between top of pole and ground is 36 in.

Pipe must fit securely in base so that poles cannot be lifted out of base. Recommend slits in the bottom 1–2 in. of the poles so that poles can be squeezed into place.

Pole base must be made either of two layers of ¾ in. plywood (CDX grade or better) glued together or 1 in. thick high density polyethylene (HDPE).

Nominal dimensions must be 12 in. × 12 in.
Weight must be 5 lb. ±10%

Assembled Pole Barrier

12 in. nylon string attached to the pole (between 2 in. and 8 in. from the top) and tennis ball

INSIDE SPLICE
Plug attaches to inner surfaces of PVC sections (one inside splice per 3 ft. of PVC tubing):
ACCEPTABLE

OUTSIDE SPLICE
Sleeve attaches to outer surfaces of PVC sections:
NOT ACCEPTABLE

DA-1
DA-2
DA-3
DA-4
Test Site Layout Instructions
DEDICATED PILE DRIVERS

Using the CAD drawing and other information provided by NCCCO, it is the Test Site Coordinator’s responsibility to lay out the test site. It is extremely important that all test equipment (corridor poles, Test Weight, and Designated Areas, etc.) be placed exactly as indicated on the CAD drawings. Failure to do so could result in the test administration being declared invalid and the need to start over.

Before the Practical Examiner can begin testing, he/she will verify the site is laid out correctly using the Site Report. Test Site Coordinators are strongly encouraged to use the Site Report form to verify that they have followed the site layout directions correctly. There are various ways to begin the process of laying out the Test Site, but we recommend the following procedure:

<table>
<thead>
<tr>
<th>Step</th>
<th>Task</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>GENERAL LAYDOWN PROCEDURES</strong></td>

</tbody>
</table>
DEDICATED PILE DRIVER SELECTION

Dedicated pile drivers used for testing must meet the following criteria:

- Must be equipped with pile guides
- Recommended minimum test area: 90 ft. × 90 ft.

COMPLIANCE

All dedicated pile drivers used on CCO practical examinations must be in compliance with federal and state OSHA requirements.

BLOCKING

Matting or cribbing installed if necessary to provide a sound foundation for the dedicated pile driver. A spirit level (minimum length 1 ft.) must be available for the candidates to verify the dedicated pile driver’s level condition prior to beginning their testing.

CONTROLS

All controls must be in working condition.

RIGGING

The rigging used to connect the Test Weight and Test Pile to the dedicated pile driver must meet the following criteria:

- Total rigging length: 10–12 ft. long (total rigging length is measured from load-bearing point to load-bearing point)
- Single leg
- Easily attached and detached Test Weight and Test Pile via hook with safety latch
- Meets current applicable OSHA and industry standards

TEST WEIGHT

The weight of the Test Weight must be verified by a weight ticket, crane’s load indicating device (LMI, RCI, RCL), or other type of certification documenting the actual load weight. This document must be presented to the Examiner.

The Test Weight must (see diagram, below):

- Be cylindrical in shape, with the same diameter from top to bottom
- Have a continuously smooth surface from top to bottom
- Have a diameter of 1 ft.
- Have a height of 20 in.
- Have a single point of attachment at the top center of the Test Weight, no more than 8 in. above the cylindrical portion of the Test Weight
- Be capped on the bottom (welded)

All load-supporting components must be assembled in accordance with proper rigging practice and working load limits for hardware utilized.

Any test weight components that use fabricated structural components and are part of the load-supporting system must be designed and fabricated in accordance with minimum acceptable requirements and welding practices.

TEST WEIGHT CONSTRUCTION

So long as the requirements for Test Weight design are adhered to, Test Site Coordinators are free to select the most convenient materials and methods available to them.

Pipe has a major advantage over other materials in that it has a smooth surface and is perfectly cylindrical, two of the main requirements for NCCCO Test Weights.

If the weight of the Test Weight is expected to change from time to time to accommodate different types and sizes of dedicated pile drivers, consider selecting steel pipe and filling it with removable material (e.g., steel slugs) that can be varied according to specific test requirements. The following diagram and chart are provided for Test Sites selecting this option.

All load-supporting components must be assembled in accordance with proper rigging practice and working load limits for hardware utilized.
TEST PILE

The Test Pile (see diagram, below) must:

- Have an outside diameter of 12 in.
- Be 25 ft. long
- Be made of steel pipe
- Have two attachment points (welded)
- Be capped on the bottom (welded)
Photographs
DEDICATED PILE DRIVERS

PVC Corridor Poles

Barrel

Test Pile (with 2 attachment points)
PHOTOGRAPHS (CONT’D)
DEDICATED PILE DRIVERS

TEST WEIGHT
One example of a suitable Test Weight is this 20 in. piece of 12 in. diameter pipe.

Any test weight components that use fabricated structural components and are part of the load-supporting system must be designed and fabricated in accordance with minimum acceptable requirements and welding practices.

MEASURING THE COURSE
All elements of the test site must be laid out in accordance with the Test Site Layout (CAD). The Test Site Coordinator is responsible for carefully checking all dimensions prior to the arrival of the Practical Examiner.

Test Weight

Test Weight

Pile Plate
YOU WILL NEED A DEDICATED PILE DRIVER:

- Capable of handling a 12 in. outside diameter pile 25 ft. in length

THE FOLLOWING IS REQUIRED FOR EACH DEDICATED PILE DRIVER:

- A cylindrical Test Weight, 12 in. diameter, no more than 28 in. tall.
- Chain sling, 10–12 ft. in length, meeting ASME and OSHA requirements, with a safety latch equipped hook sized for easy attachment to both the Test Weight and Test Pile
- Test Pile, 25 ft. long, 12 in. outside diameter, with one attachment point 4 ft. from top, and a second attachment point 12 ½ ft. from top (see diagram, page 31)
- Three empty steel drums approximately 22 in. outside diameter and 24 in. high (e.g., 55-gallon drum), open at one end
- PVC pipe, white, 1½ in. (SCH 40), sufficient to make 10 three-foot-long poles
- Two 4 ft. × 4 ft. sheets of ¾-inch CDX-grade (or better) plywood, placed under barrels and secured or weighted as necessary to prevent movement
- ¾-inch, CDX-grade (or better) plywood or 1-inch high density polyethylene (HDPE)*, sufficient to create 10 pole bases, 12 in. × 12 in. (nominal); must weigh 5 lb. ± 10%
- 11 tennis balls
- 50 ft. brightly colored string line (for Zigzag Corridor and Test Site layout use) NOTE: Chalk line may NOT be used
- Spirit level to verify levelness (minimum 2 ft. length)
- Paint (orange or red) for painting the tops of the poles and chain NOTE: Red tape may be used for the poles
- Paint of contrasting color for identifying the barrels, marking the test weight
- Handheld wind speed indicator (anemometer)
- Digital level
- Two 30 ft. tape measures
- Stopwatches and clipboards for Examiner(s) and Proctor(s)
- 2 inclinometers capable of easily display levels of 5 degrees or beyond

*EQUIPMENT SOURCES

NCCCO does not endorse or recommend specific vendors of any equipment, but the following source may help you find required materials and equipment:

- **HDPE bases**: House of Plastics (part number HOP01-055), 2580 S. Orange Blossom Trail, Orlando, FL 32805, 407-843-3290, plastics@hopu.com
NCCCO has established specific conditions and guidelines that each Practical Examination Test Site must adhere to. This Site Report is designed to ensure these conditions are met. The Examiner is required to perform a site inspection prior to the start of the first examination and complete the Site Report form. The Examiner must arrive at the Test Site in sufficient time to verify, by measuring with a tape, the accuracy of the course layout with respect to the NCCCO Test Site Layout (CAD). The Examiner must also conduct a visual inspection of the dedicated pile driver for proper setup prior to testing any applicant. This Site Report must be presented on demand to any Practical Test Auditor.

If using more than one course at this test site, please fill out a Site Report for each course.

Please type or print neatly.

NAME OF TEST SITE COORDINATOR

Check the following items for compliance:

**PRE-TEST CANDIDATE BRIEFING AREA**

A suitable location for the Pre-Test Briefing of exam candidates, including:

- Sufficient tables and chairs to seat all candidates for the Pre-Test Briefing
- A location so that waiting candidates are unable to observe other candidates being tested

Candidate materials available:

- A written description of the examination (*Candidate Handbook*)
- A plan view of the Test Site Layout (CAD)
- Operator’s manual and load chart(s) for all dedicated pile drivers that will be used for testing

**TEST SITE SETUP**

- Corridor has no more than a 6 in. maximum change in elevation and is free of vegetation
- Test Site is free of debris, stored materials, surface irregularities, or hazards such as overhead power lines that could interfere with test maneuvers
- No obstructions are within 5 ft. of the test course in any direction

*Using the Test Site Layout (CAD), verify the following measurements:*

- Distance from the center of rotation (CoR) to the center of Designated Area 1 (DA-1) (± 1 in.)
- Distance from the CoR to the center of DA-2 (± 1 in.)
- Distance from the CoR to the center of DA-3 (± 1 in.)
- Distance from the CoR to the center of DA-4 (± 1 in.)
- Distance between center of DA-4 and edge of tracks is 60 in. (± 1 in.)
- Distance between from DA-3 and the Pile Plate is 72 in. (± 1 in.)
- Width of Corridor is 3 ft. (± ½ in.)
- Distance between consecutive poles (center-to-center) is 3 ft. (± ½ in.)

**BARRELS**

- Three empty steel drums, approximately 22 in. diameter, 24 in. tall (e.g., 55-gallon drums cut to proper height), open at one end
- Identified as No 1, 2 and 3 in numerals large enough to be clearly seen from the operator’s cab
- Each placed on a 4 ft. x 4 ft. sheet of 3/4-inch CDX-grade (or better) plywood. A spare barrel is available.
SITE REPORT (CONT’D)
PRACTICAL EXAMINATION—DEDICATED PILE DRIVERS

Test Site #: ______________

PAGE 2 of 3

PVC POLES
- 8 (+ 2 replacement) poles, made of 1½ in., white PVC pipe (SCH 40), each 36 in. long with top 12 in. painted or taped orange or red (one inside splice per 3 ft. pole permitted; outside splices of PVC pipes NOT permitted; see page 27 for illustration)
- Mounted to a platform made of two layers of ¾-inch, CDX-grade (or better) plywood or one layer of 1-inch high density polyethylene (HDPE), cut 12 in. square; must weigh 5 lb. ± 10%
- A taut, longitudinal string line placed on the ground under the centerline of each pole base, per CAD. A cut concrete line may be used in lieu of a string line; no other materials are acceptable.
- 8 (+ 3 replacement) tennis balls

DESIGNATED AREAS
- Clearly marked CoR
- DA-1, DA-2, and DA-3 are clearly marked and visible to candidate
- DA-1, DA-2, and DA-3 have a second circle with an outside diameter of 18 in. and clearly visible inside line (2 in. minimum width)
- DA-4 is a 4 ft. x 4 ft. sheet of ¾-inch CDX-grade (or better) plywood
- Clearly visible perimeter line (2 in. minimum width), marked inside DA-2, DA-3, and DA-4.
- Clearly marked area for Dig Hole Task

TEST WEIGHT FOR TASK 2
- Sufficient weight to provide overhaul to prevent unspooling of hoist line
- Cylindrical in shape with no protruding edges
- The outside diameter of the Test Weight is 12 in.
- Cylinder must be 20 in. tall
- Method of attachment: Single attachment point at the top inside of the Test Weight
- 2 in. wide visible painted or taped line completely around the Test Weight starting 12 in. from the bottom of the Test Weight
- Made of steel pipe

TEST PILE
- Correct orientation based on CAD selection and pile butt in center of DA-4
- 25 ft. in length
- 12 in. outside diameter
- Made of steel pipe minimum 3/8 in. thick, max ½ in.
- First pick point centered at 4 ft. from top of pile. Second pick point centered at 12 ½ ft. from top of pile
- Bottom of pile has a welded cap

PILE PLATE
- 3 ft. square
- Made of steel plate
RIGGING (TEST WEIGHT AND TEST PILE)
- 10–12 ft. length chain
- Hooks with self-closing latches at one end
- Sufficient capacity to hoist Test Pile
- Assembled in accordance with current ASME B30.26 and OSHA standards

TEST COURSE SETUP
- The Practical Examiner whose signature appears at the end of this Site Report attests that he/she has set up the course. (Check only if the Practical Examiner has set up the test course.)
- The Examiner must have the following items for conducting the Practical Exam:
  - Two stopwatches
  - Proctor
  - Clipboard
  - Verbatim instructions
  - Anemometer (wind meter)
  - Notification of test email (new test sites if applicable)
  - Pen
  - Personal protective equipment
  - Spirit level
  - Digital level
  - 2 measuring tapes (30 ft. minimum)
  - Test Site Layout (CAD)
  - Visible marking paint

Deviations from the above-noted requirements are not allowed without written consent from the NCCCO Western Regional Office.

PRACTICAL EXAMINER ATTESTATION (EXAMINER SIGNATURE REQUIRED.)
I attest that this is a true and accurate report of the above named Test Site.

SIGNATURE OF EXAMINER

DATE

PRINTED NAME OF EXAMINER

EXAMINER ACCREDITATION NUMBER

This Site Report is to be completed by the Examiner prior to each testing session and sent with candidate score sheets to:

NCCCO—Practical Exam Processing
5250 S. Commerce Drive, Suite 100
Murray, UT 84107

Phone: 801-363-2693
Fax: 801-938-9540
Email: practicalexaminer@nccco.org
NCCCO has established specific safety conditions and guidelines that each practical exam must follow. This Dedicated Pile Driver Equipment Readiness Report is a verification tool used to ensure that all testing parameters are within strict, safe working conditions. Before testing is conducted, the dedicated pile driver being used for testing must have its own unique report filled out. This report should be completed in ink, signed by the Examiner, and sent with the Site Report to: NCCCO—Practical Exam Processing, 5250 S. Commerce Drive, Suite 100, Murray, UT 84107.

REMINDER: Each dedicated pile driver used must have a separate report filled out.

EXAMINER CHECKLIST:

- Verify dedicated pile driver has a current annual/comprehensive inspection or initial inspection if the unit has not been in service for more than 12 months; all supporting documentation must be in accordance with OSHA standards
- Complete a pre-operational shift inspection to verify no deficiencies are present that would affect safety or performance
- Set up and leveled in the location specified on the CAD, ready for operation in accordance with the manufacturer’s recommendations
- Tracks fully extended per manufacturer’s recommendations

See reverse side to complete dedicated pile driver verification.
# DEDICATED PILE DRIVER EQUIPMENT READINESS REPORT (CONT’D)

1. **Determine Radius Range**

<table>
<thead>
<tr>
<th>Maximum Radius (ft.) From Cor</th>
<th>Minimum Radius (ft.) From Cor</th>
<th>Radius Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>ft.</td>
<td>ft.</td>
<td>ft.</td>
</tr>
</tbody>
</table>

2. **Calculate DA-1 Radius**

   \[
   \text{Range} \times 0.25 + \text{Minimum Radius (ft.) From Cor} = \text{DA-1 Radius (ft.)}
   \]

3. **Calculate DA-2 Radius**

   \[
   \text{Range} \times 0.75 + \text{Minimum Radius (ft.) From Cor} = \text{DA-2 Radius (ft.)}
   \]

4. **Calculate DA-3 Radius**

   \[
   \text{Range} \times 0.25 + \text{Minimum Radius (ft.) From Cor} = \text{DA-3 Radius (ft.)}
   \]

5. **Confirm Test Pile Weight is No More Than 75% of Maximum Rated Capacity**

   \[
   \frac{\text{DA-2 Radius From Cor (ft.)}}{\text{Test Pile Weight (lb.)}} = \text{Maximum Rated Capacity @ DA-2 Radius (0°/0° Angle; 25-FOOT PILE)}
   \]

   \[
   \frac{\text{lb.}}{\text{lb.}} = 0.75 \text{ (OR LESS)}
   \]

---

*I attest that this is a true and accurate report of the dedicated pile driver being used for testing.*

NCCCO Information Release Policy

A. Definitions

1. “NCCCO” means and refers to the National Commission for the Certification of Crane Operators acting through its staff and authorized agents and representatives.

2. “Releasable Information” means and refers to the following information: name, certification status, examination dates, certification dates, certification number(s), and designations. In the case of accredited Practical Examiners, “Releasable Information” also means and refers to the following information: name, accreditation status, accreditation dates, accreditation number, and categories in which the Practical Examiner is authorized to administer exams.

3. “Third Party” means and refers to an employer, prospective employer, regulatory agency, or any other person or entity that makes an inquiry to NCCCO.

B. Policies

1. It shall be the policy of NCCCO to provide Releasable Information pertaining to individuals who have successfully passed one or more NCCCO examinations. It shall also be the policy of NCCCO to provide Releasable Information pertaining to such individuals on its website using such protocols as may be established. In addition, it shall be the policy of NCCCO to provide information, as appropriate, concerning individuals who have been sanctioned, suspended or revoked from participation in NCCCO’s programs, using such protocols as may be established.

2. Releasable Information may be released to a Third Party who makes a written request, including by electronic correspondence. Generally, Releasable Information will be released within one business day from actual receipt of a written request.

3. If a Third Party requests information concerning an individual who has not taken or successfully passed an NCCCO examination, NCCCO may release a statement confirming that, as of a given date, the individual does not appear on NCCCO’s list of successful candidates in one or more categories of certification.

4. If an applicant or certificant is under formal sanction, suspension, or revocation by NCCCO, then NCCCO may release a statement to that effect to any persons and by any reasonable means, including by means of a list published on the NCCCO website. In addition, if an Authorized Participant is under formal investigation, sanction, suspension, or revocation by NCCCO, then NCCCO may release a statement concerning the status of the Authorized Participant to any persons and by any reasonable means, including by means of a list published on the NCCCO website. Any such statement may identify the Authorized Participant, the credentials or capacities affected, the actions taken, and the effective dates of any such actions.

5. If an accredited Practical Examiner, authorized Test Site Coordinator, listed Training Provider, or other authorized participant in NCCCO’s programs (“Authorized Participant”) is under formal sanction, suspension, or revocation by NCCCO, then NCCCO may release a statement to that effect to any persons and by any reasonable means, including by means of a list published on the NCCCO website. In addition, if an Authorized Participant is under formal investigation, sanction, suspension, or revocation by NCCCO, then NCCCO may release a statement concerning the status of the Authorized Participant to any persons and by any reasonable means, including by means of a list published on the NCCCO website. Any such statement may identify the Authorized Participant, the credentials or capacities affected, the actions taken, and the effective dates of any such actions.

6. If a Third Party seeks information other than the foregoing information, generally, absent a subpoena or similar legal process, such information will not be released. However, in the course of business, as circumstances reasonably warrant, NCCCO reserves the discretion to release information other than the foregoing information.

7. Certain situations may require or warrant the immediate verbal confirmation of an individual’s certification status or other Releasable Information in response to a written or verbal request. Under such circumstances, NCCCO may provide such immediate verbal confirmation, at its discretion. When such a verbal confirmation is provided, it shall be NCCCO’s policy to follow up with a written confirmation.

8. It shall be the policy of NCCCO to discuss score-related and test-specific matters only with a candidate or a candidate’s authorized legal representative.

9. NCCCO will release Releasable Information about an individual upon receipt of a written request (including electronic correspondence) from that individual. NCCCO may release information other than Releasable Information about an individual, at its discretion, upon receipt of a signed, notarized, written request from that individual. In addition, NCCCO will release information other than Releasable Information about an individual when required by a legal authority of competent jurisdiction under a duly-issued subpoena, subject to any objection, or as otherwise required by law.
Summary of Changes
TEST SITE COORDINATOR HANDBOOK—DEDICATED PILE DRIVERS

Following approval by the appropriate NCCCO committees, Commissioners, and/or Board of Directors, the following substantive (non-editorial) changes have been made to the Dedicated Pile Driver Test Site Coordinator Handbook (major programmatic changes covered in Test Site Coordinator Bulletins are in bold):

Changes made 03/20:

<table>
<thead>
<tr>
<th>Page(s)</th>
<th>Section</th>
<th>Change</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>footers all</td>
<td>• Added test code and form number</td>
</tr>
<tr>
<td>19</td>
<td>Detailed Score Report Request Form</td>
<td>• Changed mailing address, phone, and fax to Utah</td>
</tr>
<tr>
<td>37</td>
<td>Site Report</td>
<td>• Changed mailing address, phone, and fax to Utah; updated email</td>

<tr>
<td>39</td>
<td>Dedicated Pile Driver Equipment Readiness Report</td>
<td>• Changed mailing address to Utah</td>
</tr>
</tbody>
</table>

Changes made 12/19:

<table>
<thead>
<tr>
<th>Page(s)</th>
<th>Section</th>
<th>Change</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>Submitting Applications</td>
<td>• Instructions added for electronically submitting candidate applications and fees</td>
</tr>
<tr>
<td>17–18</td>
<td>Candidate Application</td>
<td>• Attestation statement updated</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Updated certification cards now issued at no charge when adding designations</td>
</tr>
</tbody>
</table>

Changes made 09/19:

<table>
<thead>
<tr>
<th>Page(s)</th>
<th>Section</th>
<th>Change</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>Hosting and Administering CCO Practical Exams</td>
<td>• Added that Test Sites and Practical Examiners may charge fees beyond exam fees</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Added that Test Sites are registered to physical location of where testing occurs</td>
</tr>
<tr>
<td>5</td>
<td>Permanent Test Sites</td>
<td>• Permanent open test sites may be listed on the NCCCO website by completing form</td>
</tr>
<tr>
<td>5</td>
<td>Score Reporting</td>
<td>• New Certification Number Report automatically sent with Pass/Fail Score Report</td>
</tr>
<tr>
<td>17</td>
<td>Candidate Application</td>
<td>• Updated candidate application to indicate which fields are mandatory</td>
</tr>
<tr>
<td>25, 27</td>
<td>Pole Barrier Construction</td>
<td>• Pole bases made of HDPE must be 1 in. thick and weigh 5 lb. ± 10%</td>
</tr>
<tr>
<td>36</td>
<td>Site Report</td>
<td>• Pole bases made of HDPE must be 1 in. thick and weigh 5 lb. ± 10%</td>
</tr>
