

Crane Report

PRACTICAL EXAMINATION—TOWER CRANES

NCCCO has established specific safety conditions and guidelines that each practical exam must follow. This Crane Report is a verification tool used to ensure that all testing parameters are within strict, safe working conditions. Before testing is conducted, the crane being used for testing must have its own unique report filled out. This report should be completed in ink, signed by the Examiner, and emailed with the candidate score sheets, applications, and other supporting documentation to: practicals@nccco.org.

Reminder: *Each crane used must have a separate report filled out.*
